

# FROM SURVIVING TO THRIVING

*As a result of the Corona virus (COVID-19) pandemic, we are all making major adjustments in our personal lives and our businesses. For the health and safety of ourselves, our families, communities and our country, we are being asked to maintain social distancing to slow the spread of infection. As a result, most of us are working remotely.*

## GOT A MINUTE?

*Now may be a good time to talk with us if you need help with CRM or other business applications. We are available for an on-line session or phone call.*

*Stay safe and be well,*

Tim and Brynn  
TIMIT Solutions

## WORKING REMOTELY - WHAT'S IN YOUR TOOLBOX?

Whether you normally work remotely or not, staying connected AND getting work done is paramount in order to stay ahead. One way to do that is to use this time to learn new skills, refocus priorities, and make plans. Following are resources for your toolbox that can help you not only survive but thrive, and come out stronger.
